

Pastoral Care Check-Up

This year has turned out to be an unexpectedly challenging time for this generation. The COVID-19 pandemic looks likely to spill over into 2021. The economic recession that has already happened will continue to deepen. The Hebron pastoral team is concerned about the welfare of the members and friends of the church. It has remained in touch and visited as many of them as possible over the past half-year. The Hebron Pastoral Care Check-Up is another initiative of the pastoral team to connect with Hebronites and enable Hebronites to update the team concerning their current situation. This will help the team in planning the execution of its pastoral care ministry. Please help us by filling out the survey so that we can serve you better.
